SUBJECT INDEX TO VOLUME 113

Acid secretion, stimulated by histamine in stomach (mouse), 113:1545
Acid, *H. pylori* effect on, 113:S43
Acinar cells, pancreas
cell volume changes modulate cholecystokinin and carbochol-stimulated amylase release in (rat), 113:1756
myosin I association with zymogen granule membranes in (rat), 113:649
Acute pancreatitis
and chemokine gene expression in pancreatic acinar cells (rabbit), 113:1966
effects of TNF and IL-1 during (mouse), 113:1741
role of cell-cell contacts, 113:1058-tmig
Adenocarcinoma
Crohn's-associated of small intestine, genetic alterations in, 113:127
esophageal, familial aggregation of GERD in patients with, 113:1449
Adenomatous polyposis coli
attenuated, gastric adenocarcinoma and dysplasia in fundic gland polyps in patient with, 113:659-cr
Adenomatous polyposis coli (APC) gene
3′ mutation in, 113:326-cr
function, 113:2009
Adherens junctions, dissociation and reassembly during experimental acute pancreatitis, 113:1355
Adhesion, *H. pylori* to gastric cells, 113:72
Aging, premature, of hepatic mitochondrial DNA in Wilson's disease, 113:599
Airway protection, impaired deglutitive, videofluoroscopic analysis, 113:1457
Alcohol, antibody cytotoxicity in hepatocytes exposed to (rat), 113:265
Alcoholic liver disease, liver cyclooxygenases in, 113:1811-c
Alcoholism, and pancreas, 113:355-e
Alimentary tract epithelium, expression of CDX1 protein, 113:478
Alkaline secretion, duodenal mucosal, water extract of *H. pylori* inhibits (rat), 113:1570
Allergic gastric inflammation, role of mast cell–dependent TNF-α production in (mice), 113:1560
Alpha-D-glucosidase inhibitors, inhibit entry of free glucose into enterocytes in jejunum (rat), 113:205
American Gastroenterological Association

Medical progress and ulcer disease: three key observations that changed the compass, 113:1031
Nutrition and the gastroenterologist: the last 100 years, 113:675
The centennial year: the development of important ideas during the last 100 years, 113:341
The enigmatic electrical slow waves: a mirror on 100 years of research in gut motility, 113:1785
The science of today is the clinical practice of tomorrow, 113:1026
Anti-tumor necrosis factor α antibody, controlled trial for Crohn's disease, 113:1042-ss
Antibiotics, prophylactic
cost of for SBP, 113:1058-tmig
prophylactic, cost-analysis in spontaneous bacterial peritonitis, 113:1289
Antigen transport, rapid transepithelial in jejunem (rat), 113:856
Antineutrophil cytoplasmic antibodies, in TCR-α–deficient mice with chronic colitis (mouse), 113:1828
Antrum, apical cell membrane resistance increased by luminal acid (Necturus), 113:875
APC gene, function, 113:2009-ss
Apical cells, antral mucosa, resistance increased by luminal acid (*Necturus*), 113:875
APO-1/Fas, see CD95
Apoptosis
CD95 mediation of in colon epithelial cells, 113:150
Fas-mediated, and intestinal immunology, 113:345-e
germander induction of in hepatocytes (rat), 113:1134
H. pylori induced, 113:1817-tmig
and *H. pylori* regulation of gastric epithelial cell growth, 113:1836
of hepatocytes, cathepsin B and bile salt induction (rat), 113:1714
peroxynitrite-induced, mediated by mesalamine in intestinal epithelial cells, 113:1480
ras mutations and effects of NSAIDs, 113:1817-tmig
sulindac-induced, enterocyte resistance to increased by K-*ras* (rat), 113:1892
and survivin expression in colon and pancreatic cancers, 113:1060-gn
Appendectomy
and appendicitis, 113:1415-ss
risk of ulcerative colitis or Crohn's disease, 113:377
appendectomy for, 113:1415-ss
Arginase, plasma, and gut endotoxin restriction (rat), 113:1375
Arginine, deficiency in bile duct ligation (rat), 113:1375
Arginine vasopressin, induces contraction and stimulates growth of hepatic stellate cells, 113:615
Asialoglycoprotein receptor, apical expression in intestinal cell line HT-29, 113:1501
Aspiration, prevention of during swallowing, 113:1427-tmig
Aspirin, suppression of intestinal polyposis by targeted inhibition of cyclooxygenase 2, 113:1039-ss
Aterioportal fistula syndrome, clincopathologic features, diagnosis, and therapy, 113:1390
Atrophic gastritis, lanzoprazole and *H. pylori*, 113:2018-c
Attention, effect on gut perception, 113:415
Autoantibodies
goblet cell, in IBD, 113:101
inflammatory bowel disease, 113:1-tmig
Autoimmune gastritis, induction by neonatal injection of native proton pump antigens (mouse), 113:1136
Autoimmune hepatitis, type 2, Fas/APO1 mutations and autoimmune lymphoproliferative syndrome in patient with, 113:1384
Autoimmune lymphoproliferative syndrome, and Fas/APO1 mutations in patient with type 2 autoimmune hepatitis, 113:1384

viral, 113:1807-br
Hepatitis B
chronic
GB virus C RNA in serum, liver, and

peripheral blood mononuclear cells, 113:573
lamivudine treatment, 113:1258
long-term follow-up of interferon alfa treatment, 113:1660
core antigen, transmission of hepatitis B by liver transplantation from donors positive for antibody to, 113:1668
transmission by liver transplantation from donors positive for antibody to hepatitis B core antigen, 113:1668
treatment and transmission, 113:1428-tmig

Hepatitis C, chronic
bystander T-cell clones in, 113:1050-c
effects of *d*-α-tocopherol on activation of hepatic stellate cells in, 113:1069-rc
efficacy of second cycle of interferon treatment, 113:1654
GB virus C RNA in serum, liver, and peripheral blood mononuclear cells, 113:573
viremia after therapy with interferon and prognosis of treatment outcome in, 113:1647

Hepatitis C virus (HCV)
infection, 113:1428-tmig
chronic, interferon therapy, 113:372-tmig
mutations in nonstructural 5A region and response to interferon alfa, 113:567
outcome of infection influenced by genes of MHC class II, 113:1675
predicting efficacy of interferon therapy in chronic infection, 113:558

Hepatitis D, chronic, GB virus C RNA in serum, liver, and peripheral blood mononuclear cells, 113:573

Hepatocellular carcinoma
bile acid carrier transport of chlorambucil-taurocholate, 113:1295
diagnosis and treatment, 113:1807
incidental nature, 113:730-c

Hepatocellular tumors, childhood, in FAP, 113:1051-c

Hepatocyte growth factor, role during gastric ulcer healing (rat), 113:1858

Hepatocytes
antibody cytotoxicity in those exposed to alchol (rat), 113:265
canalicular membrane, osmodependent dynamic localization of *mrp2* gene-encoded conjugate export pump in (rat), 113:1438
cathepsin B and bile salt–induced apoptosis of (rat), 113:1714
cultured, ethanol perturbs receptor-operated cytosolic free calcium concentration signals (rat), 113:641
ethanol reduces vesicle movement in (rat), 113:1938
germander induction of apoptosis in (rat), 113:1334
tight-junctional permeability increased in experimental colitis (rat), 113:1347

Hepatopulmonary syndrome
lack of efficacy of TIPS for, 113:728-c
and nitric oxide, 113:682-e
role of endothelial nitric oxide synthase in pathogenesis of (rat), 113:606

Herbal remedies, hepatoxicity, 113:1408-e

Hereditary hemochromatosis, utility of hepatic iron index, 113:1270

Hereditary nonpolyposis colorectal cancer, mutations predisposing to, 113:1146

Histamine
inhibition of somatostatin and stimulation of acid secretion in stomach (mouse), 113:1545
release in enterochromaffin-like cells stimulated by *H. pylori* LPS, 113:1110

Homeobox transcription factors, expression in proximal and distal small intestine, 113:472

Homeodomains, and cell phenotype, 113:680-e

hsp72 stress response, effects of mesalamine on in IEC-18 intestinal epithelial cells (rat), 113:1474

HT-29 intestinal cell line, apical expression of asialoglycoprotein receptor in, 113:1501

Humoral immunity, defects of in Whipple's disease, 113:442

Hydroxocobalamin, normalization of plasma vitamin B_{12}, 113:430

Hydroxyethyl radicals, target immune reactions triggered by alcohol in hepatocytes (rat), 113:265

Hyperbilirubinemia, fasting, mechanism of, 113:1798

Hypergastrinemia, mechanism of gastric acid hypersecretion (rat), 113:1129

Hyperglycemia, slows gastric emptying in normal subjects and patients with IDDM, 113:60

Hyperplasia
intestinal goblet cells, role of T helper 2 cells in mice infected with *T. spiralis* (mouse), 113:542
liver, metabolic alterations associated with cell growth (rat), 113:238

Hyperplastic polyps, dietary intake and lifestyle risk factors, 113:423

IEC-18 intestinal epithelial cells, effects of mesalamine on hsp72 stress response in (rat), 113:1474

Ileoanal pull-through, health-related quality of life after, 113:7

Ileum
bromelain prevents secretion of enterotoxins in (rabbit), 113:175
induction of apical sodium-dependent bile acid transporter mRNA by cholic acid (rat), 113:1599

Image of the Month, 113:6, 113:376, 113:739, 113:1061, 113:1432, 113:1822

Immunity, innate, in crypt microenvironment and Paneth cells, 113:1779-v

Immunoglobulin G antibodies, contribute to immunity against *H. felis* infection in stomach (mouse), 113:185

Immunotherapy, Crohn's disease, 113:1819-gn

Infants, cell adhesion molecule distribution in those with intestinal epithelial dysplasia, 113:833

Inflammatory bowel disease (IBD)
complicated by systemic amyloidosis, 113:731-c
endopeptidase control, 113:737-gn
goblet cell autoantibodies in, 113:101
issues related to, 113:1-tmig
mesalamine treatment, 113:1427-tmig
preferential expression of C-X-C chemokine ENA-78 in intestinal epithelium, 113:808
thrombomodulin expression in, 113:107

Insulin-dependent diabetes mellitus (IDDM), blood glucose and gastric emptying, 113:60

Insulin-like growth factor I (IGF-I)
correction of impaired intestinal sugar transport in cirrhosis (rat), 113:1180
hepatoprotective effects for carbon tetrachloride–induced cirrhosis (rat), 113:1682

Integrin α7β1, expression in intestinal cells and enterocytic differentiation, 113:1510

Interferon
efficacy of second cycle of treatment in chronic hepatitis C, 113:1654
predicting efficacy of therapy for chronic infection with hepatitis C virus, 113:558
therapy for chronic HCV infection, 113:372-tmig
viremia after therapy with and prognosis of treatment outcome in chronic hepatitis C, 113:1647

Interferon alfa
chronic hepatitis B treatment, long-term follow-up, 113:1660
response to and mutations in nonstructural 5A region of HCV, 113:567
Interferon gamma
IL-10 maintains epithelial cell barrier integrity in presence of, 113:151
inhibits rotavirus entry into intestinal cells, 113:81
Interleukin 1
inhibits rotavirus entry into intestinal cells, 113:81
and TNF, effects during acute pancreatitis (mouse), 113:1741
Interleukin 1β secretion of collagenase induced by in intestinal smooth muscle cells is repressed by corticosteroids, 113:1924
Interleukin 4, expression in Crohn's disease, 113:118
Interleukin 10
intravenous, in steroid refractory Crohn's disease, 113:383
maintains epithelial barrier integrity, 113:151
Interleukin 12, defects of monocyte production of in Whipple's disease, 113:442
Intestinal cell line
cytokine inhibition of rotavirus entry into, 113:81
HT-29, apical expression of asialoglycoprotein receptor in, 113:1501
Intestinal cells, integrin α7β1 expression, relation to enterocytic differentiation, 113:1510
Intestinal epithelial cells
H-*ras* transformed, growth suppressed by cyclooxygenase 2 inhibitor (rat), 113:1883
mesalamine effects on hsp72 stress response in (rat), 113:1474
Intestinal epithelial dysplasia, cell adhesion molecule distribution in infants with, 113:833
Intestinal epithelium
bile regulation of MHC class II molecule expression on (rat), 113:1901
neutrophil migration across, 113:1489
permeability altered by EPEC-induced myosin light chain phosphorylation, 113:1873
Intestinal neoplasia, in vivo activation of mitogen-activated protein kinases (rat), 113:1589
Intestinal polyposis, aspirin and suppression of by targeted inhibition of cyclooxygenase 2, 113:1039-ss
Intestine
absorption of proline and leucine in chronically catheterized rats (rat), 113:865
barrier function and EPEC, 113:1817-tmig
changing environment, 113:1402-e
cultured muscle, autocrine regulation of growth by growth factors, 113:817
Fas and immunology of, 113:345-e
immortalized epithelial cells, cell dynamics and differentation, 113:1198
oligopeptide transporter, 113:322-srr
patterns of mRNA expression in uroguanylin and guanylin, 113:1000-rc
persistent neuromuscular dysfunction after acute nematode infection (mouse), 113:1224

stimulation by mesenchymal cells, 113:144
Introduction, 113:S1
Iron index, hepatic
in cirrhosis, 113:1052-c
utility in patients with hereditary hemochromatosis, 113:1270
Ischemia
cold liver, role of reative oxygen intermediates in IL-10 release after (mice), 113:1701
liver reperfused, induction of ferritin synthesis in (rat), 113:946
pancreatic, hemodynamics of in cardiogenic shock (pig), 113:938
Islet cell tumor, mechanism of gastric acid hypersecretion (rat), 113:1129
Isosorbide-5-mononitrate, effects compared with propranolol on first bleeding and long-term survival in cirrhosis, 113:1632

Jejunum
α-D-glucosidase inhibitors action on entry of free glucose into enterocytes (rat), 113:205
rapid transepithelial antigen transport in (rat), 113:856

K-*ras* mutation, in chronic pancreatitis patients, long-term follow-up, 113:593
Knockout mice, CFTR, MUCLIN expression in (mouse), 113:521

Lactase-phlorizin hydrolase/human growth hormone transgene, rat, expression on small intestinal villi in transgenic mice (mouse), 113:844
Lamivudine, treatment, chronic hepatitis B, 113:1258
Lansoprazole, *H. pylori* and atrophic gastritis, 113:2018-c
Laparoscopy, and tuberculosis peritonitis, 113:687-ss
Laryngeal disease, cormorbid occurrence with esophagitis in U.S. military veterans, 113:755
Lectins, role in tumor biology, 113:2003-e
Leiden factor V, and small bowel infarction, 113:322-cr
Leptin gene, mutation causes human equivalent of ob/ob obese mouse, 113:737-gn
Leucine, intestinal absorption in chronically catheterized rats (rat), 113:865
Leukopenia, WBC differential when induced by 6-MP for IBD, 113:1810-c
Lewis phenotype, host, expression of *H. pylori* Lewis related to, 113:1091
Lifestyle risk factors, effects on dietary intake, 113:423
Lipopolysaccharide, *H. pylori*, stimulates histamine release and DNA synthesis in enterochromaffin-life cells (rat), 113:1110
Liver
arginine vasopressin induces contraction and stimulates growth of stellate cells, 113:615
cirrhotic, effects of paracentesis-induced circulatory dysfunction on hemodynamics in, 113:579
cold, ischemia and reperfusion, reactive oxygen intermediates and IL-10 release after (mice), 113:1701
cyclooxygenases in alcoholic liver disease, 113:1811-c
cystic mass, 113:6-im
disease
alcoholic, liver cyclooxygenases in, 113:1811-c
chronic, recurrent familial prolonged intrahepatic cholestasis of pregnancy associated with, 113:966-cr
diagnosis of Wilson's disease in patients with, 113:212
end-stage, prognosis, 113:1058-tmig, 113:1278
effects of *d*-α-tocopherol on stellate cell activation in chronic hepatitis C, 113:1069-rc
endotoxin-induced damage, differential effects of NO synthase inhibitors on (rat), 113:1323
fibrosis
or cirrhosis, noninvasive diagnosis, 113:1609

role of chemokines (rat), 113:277
GB virus C RNA in from patients with hepatitis B, C, and D, 113:573
hepatoxicity of herbal remedies, 113:1408-e
iron index
in cirrhosis, 113:1052-c
utility in patients with hereditary hemochromatosis, 113:1270
ischemic-reperfused, induction of ferritin synthesis in (rat), 11 3:946
metabolic alterations in hyperplasia and cancer associated with cell growth (rat), 113:238
pathology, 113:1044-br
perfused, effect of fasting on uptake of bilirubin and sulfobromophthalein by (rat), 113:1707
premature oxidative aging of mitochondrial DNA in Wilson's disease, 113:599
stellate cells, G protein role in TNF-α inhibition of collagen α_1(I) gene expression (rat), 113:625
T cell–mediated injury, contribution of Fas ligand (mice), 113:1315
transplantation
antiangiogenic agents protect sinusoidal lining cells from cold preservation injury in (rat), 113:1692
transmission of hepatitis B from donors positive for antibody to hepatitis B core antigen, 113:1668

Luminal acid, increases apical cell membrane resistance in antral mucosa (*Necturus*), 113:875

Lymphocytes
intestinal intraepithelial, stimulation by mesenchymal cells, 113:144
intraepithelial, Fas-mediated cytotoxicity by in GVHD (mouse), 113:168

Major histocompatibiilty complex (MHC) class II
bile regulation of expression on intestinal epithelium (rat), 113:1901
molecules, bile and expression on intestinal epithelial cells, 113:1817
outcome of HCV infection influenced by genes of, 113:1675

MALT lymphoma, pathogenesis as an antigen-dependent process, 113:1810

Mast cells
role in gastritis with or without *H. pylori* infection, 113:746
TNF-α production dependent on, role in allergic gastric inflammation (mouse), 113:1560

Megacolon, new gene found, 113:373-gn

Mesalamine
effects on hsp72 stress response in IEC-18 intestinal epithelial cells (rat), 113:1474
maintenance treatment of Crohn's disease, 113:1457
mechanisms of action in treatment of IBD, 113:1427-tmig
mediates peroxynitrite-induced apoptosis in intestinal epithelial cells, 113:1480

Mesenchymal cells, stimulation of intestinal intraepithelial lymphocytes, 113:144

Met, role during gastric ulcer healing (rat), 113:1858

Metaplasia, duodenal gastric, in *H. pylori*–positive patients, 113:741

Methyl *tert*-butyl ether, comparison with ethyl proprionate for dissolution of gallstones, 113:232

Mitochondrial DNA, hepatic, premature oxidative aging of in Wilson's disease, 113:599

Mitogen-activated protein kinases, in vivo activation in intestinal neoplasia (rat), 113:1589

Morphine
effect on GERD, 113:409
effect on transient lower esophageal sphincter relaxation, 113:409
and GERD, 113:371

Mouse, history of in gastrointestinal research, 113:1431-ce

Mrp2, expression in canalicular cholestasis (rat), 113:255

mpr2 gene, conjugate export pump encoded by, osmodependent dynamic localization in hepatocyte canalicular membrane (rat), 113:1438

Mucin, gland-type gastric, aberrant expression in *H. pylori*–infected epithelium, 113:455

MUCLIN, expression in CFTR knockout mice (mouse), 113:521

Mucosa
H. pylori
effect on acid and gastrin, 113:S43
and inflammatory response, 113:S35
mechanisms of damage by *H. pylori*, 113:S31

Mucosal biopsy, gastrointestinal tract, 113:1045-br

Multiple endocrine neoplasia type I gene locus, role in pathogenesis of type II gastric carcinoids, 113:773

Muscle cells, cultured intestinal, autocrine regulation of growth by growth factors, 113:817

Myenteric neurons
colon, polarity of neurochemically defined, 113:497
distribution and pharmacology of purinergic fast excitatory postsynaptic potentials in (guinea pig), 113:1522

Myenteric plexus, gastric, impaired NO synthase expression in spontaneous diabetes (rat), 113:1535

Myosin I, association with zymogen granule membranes in pancreatic acinar cells (rat), 113:649

Naltrexone, treatment, cholestatic pruritus, 113:1264

Necrosis, relationship to organ failure in severe acute pancreatitis, 113:899

Nematode infection, acute, persistent intestinal neuromuscular dysfunction after (mouse), 113:1224

Neuromuscular dysfunction, intestinal, persistent after acute nematode infection (mouse), 113:1224

Neutrophils, migration across intestinal epithelium, 113:1489

NF-κB, activated by *H. pylori* in gastric epithelial cells, 113:1099

Nitric oxide
and acute tissue damage, 113:1405-e
and hepatopulmonary syndrome, 113:682-e

Nitric oxide synthase
endothelial, role in pathogenesis of hepatopulmonary syndrome (rat), 113:606
impaired expression in the gastric myenteric plexus of spontaneous diabetes (rat), 113:1535
inducible, inhibition ameliorates endotoxin-induced gut mucosal barrier dysfunction (rat), 113:1246
inhibitors, differential effects on endotoxin-induced liver damage (rat), 113:1323

Nitrovasodilators, treatment, portal hypertension, 113:1794-e

Nonsteroidal anti-inflammatory drug (NSAIDs)
for biliary colic, 113:1-tmig
and chemopreventative role in colorectal cancer, 113:1992-vidd
prevention of colorectal cancer, 113:1999-e
role of *ras*, colonic cell growth, and apoptosis, 113:1817-tmig

Notices, 113:1055, 113:1426, 113:1816

Nutrition, and gastroenterologist, last 100 years, 113:675-aga

ob/ob obese mouse, human equivalent, 113:737-gn

Octreotide, inhibition of tumor cell kinet-

ics and serum insulin growth factor I levels by in colorectal cancer, 113:767
Oligopeptide transporter, intestinal, 113:332-srr
Oncology, 113:693-br
Organ failure, relationship to necrosis in severe acute pancreatitis, 113:899
Organ transplantation, in Japan, 113:373-gn
Overview, 113:S3
Oxygen, reactive intermediates, role in IL-10 release after cold liver ischemia and reperfusion (mice), 113:1701

p53 tumor cells, killed selectively by smart virus, 113:374-gn
Pain, esophageal, PET identification of brain loci processing, 113:50
Pancreas
acinar cells
bombesin-induced activation of phospholipase C-β_1 in inhibited by EFG (rat), 113:1747
cell volume changes modulate cholecystokinin and carbachol-stimulated amylase release in (rat), 113:1756
chemokine gene expression in and acute pancreatitis (rabbit), 113:1966
myosin I association with zymogen granule membranes in (rat), 113:649
alcoholic, 113:355-e
and alcoholism, 113:255-e
CFTR as marker of duct development, 113:914
ductal proliferations induced by systemic treatment with EGF (pig), 113:1367
injury to by fatty acid ethyl ester (rat), 113:286
ischemia, hemodynamics of in cardiogenic shock (pig), 113:938
relationship of necrosis to organ failure, 113:736-tmig
retinoic acid beta receptor regulation of growth and differentiation in carcinoma cells, 113:920
trypsinogen activation mediated by cathepsin B (rat), 113:304
Pancreatic cancer
and chronic pancreatitis, 113:372-tmig
diagnosis and staging, 113:1417-ss
risk of following pancreatitis, 113:587
survivan expression in and apoptosis, 113:1060-gn
Pancreatic duct, epithelium, 113:1420-br
Pancreatic tumor syndrome, ulcerogenic, 113:1057-tmig
Pancreatitic cancer, RAR in, 113:736-tmig
Pancreatitis
acute, effects of TNF and IL-1 during (mouse), 113:1741
chronic
and pancreatic cancer, 113:372-tmig
enhanced urokinase plasminogen activation and pathogenesis, 113:904
long-term follow-up of patients with K-*ras* gene mutation, 113:593
experimental acute, disocciation and reassembly of adherens junctions during, 113:1355
gallstone, emergent ERCP, 113:1040-ss
inhibition of TGF-β1 and reduction of ECM (rat), 113:295
recurrent acute and chronic, mutation in cationic trypsinogen gene associated with, 113:1063-rc
risk of pancreatic cancer following, 113:587
severe acute, relationship of necrosis to organ failure, 113:899
Paneth cells, and innate immunity in crypt microenvironment, 113:1779-vidd
Paracentesis
circulatory dysfunction induced by, effect on hepatic hemodynamics in cirrhosis, 113:579
large-volume, acute hemoperitoneum after, 113:978-cr
Patient-oriented research, future of, 113:1061-ce
Pept-1, in intestine, 113:322-srr
Perfusion, liver effect of fasting on uptake of bilirubin and sulfobromophthalein during (rat), 113:1707
Peripheral blood mononuclear cells, GB virus C RNA in from patients with hepatitis B, C, and D, 113:573
Peritoneum, involvement in colon cancer, 113:1812-c
Peritonitis
spontaneous bacterial, cost-analysis of prophylactic antibiotics, 113:1289
tuberculosis, and laparoscopy, 113:687-ss
Permeability
small intestine, increased in families with Crohn's disease, 113:802
tight-junctional, increased in hepatocytes in experimental colitis (rat), 113:1347
Peroxynitrite, apoptosis induced by in mediated by mesalamine in intestinal epithelial cells, 113:1480
Phenotype, cell, and homeodomains, 113:680-e
Phosphatidylinositol 3-kinase, regulation of endocytic-transcytotic pathways and bile secretion by (rat), 113:954
Phospholipase C-β_1, bombesin-induced activation in pancreatic acinar cells inhibited by EFG (rat), 113:1747
Polymerase chain reaction, analysis of CSF for staging and monitoring
Whipple's disease, 113:434
Polyps
hyperplastic, in colon, 113:371-tmig
small, 113:1413-ss
Portal hypertension, treatment with β-adrenegergic blockers and nitrovasodilators, 113:1794-e
Positron emission tomography (PET), identification of brain loci processing esophageal sensation, 113:50
Pregnancy, recurrent familial prolonged intrahepatic cholestasis of associated with chronic liver disease, 113:966-cr
PreS mutation, in chronic hepatitis B, leads to virus retention and misassembly, 113:1976-cr
Primary biliary cirrhosis (PBC)
biliary epithelial cell plasma membrane antigen in, 113:1727
randomized controlled trials of ursodeoxycholic acid, 113:884
treatment
of osteopenia in, 113:219
with UDCA, 113:735-tmig
Procollagen, in celiac disease, 113:1-tmig
Progastrin, glycine-extended, regulation of growth of gastric cancer, 113:782
Prognosis
end-stage liver disease, 113:1278
treatment outcome in chronic hepatitis C and viremia after interferon therapy, 113:1647
Programmed cell death, Fas-mediated and intestinal immunology, 113:345-e
Proline, intestinal absorption in chronically catheterized rats (rat), 113:865
Propranolol, comparison with isosorbide-5-mononitrate effects on long-term survival and first bleeding in cirrhosis, 113:1632
Prostaglandin E receptor, role of subtypes in gastric and duodenal bicarbonate secretion (rat), 113:1553
Prostaglandins, produced by endotoxin-induced COX-1 in stomach during endotoxemia (rat), 113:195
Protein kinases, mitogen-activated
mediate stimulation of bile acid secretion

by tauroursodeoxycholate in liver (rat), 113:1306
in vivo activation in intestinal neoplasia (rat), 113:1589
Prothrombin time, correction by recombinant factor VIIa in cirrhotic patients, 113:1930
Proton pump antigens, native, neonatal injection of induces autoimmune gastritis (mouse), 113:1136
Pulmonary disease, cormorbid occurrence with esophagitis in U.S. military veterans, 113:755
Pyruvate dehydrogenase X, as human biliary epithelial cell plasma cell membrane antigen in primary biliary cirrhosis, 113:1727

Quality of life, health-related, after ileoanal pull-through, 113:7

Radiology, evidence of recurrent Crohn's disease, 113:1823
Rapid Communications
A pilot study of the effects of *d*-α-tocopherol on hepatic stellate cell activation in chronic hepatitis C, 113:1069
Gastrin deficiency results in altered gastric differentiation and decreased colonic proliferation in mice, 113:1015
Localization of the Bannayan–Riley–Ruvalcaba syndrome gene to chromosome 10q23, 113:1433
Mutations in the cationic trypsinogen gene are associated with recurrent acute and chronic pancreatitis, 113:1063
note to authors, 113:739-ce
Osmodependent dynamic localization of the mpr2 gene–encoded conjugate export pump in the hepatocyte canalicular membrane (rat), 113:1438
Uroguanylin and guanylin: distinct but overlapping patterns of messenger RNA expression in mouse intestine, 113:1000
Uroguanylin is expressed by enterochromaffin cells in the rat gastrointestinal tract, 113:1007
***ras*,** mutations in and chemopreventive actions of NSAIDs, 113:1817-tmig
Receptors
asialoglycoprotein, apical expression in intestinal cell line HT-29, 113:1501
chimeric, T cell targeting of $TAF72^{+}$ tumor cells by, 113:1163
prostaglandin E, role of subtypes in gastric and duodenal bicarbonate secretion (rat), 113:1553
retinoic acid, in pancreatitic cancer, 113:736-tmig
retinoic acid β, regulation of growth and differentiation in pancreatic carcinoma cells, 113:920
Reflux esophagitis, and *H. pylori*, 113:2020-c
Reperfusion, liver, role of reactive oxygen intermediates in IL-10 release after (mice), 113:1701
Retinoic acid receptor
β, regulation of growth and differentiation in pancreatic carcinoma cells, 113:920
in pancreatitic cancer, 113:736-tmig
Risk factors, *H. pylori* infection, 113:S15
Rotavirus, cytokine inhibition of entry into intestinal cell lines, 113:81

Salmonella, dietary calcium inhibits intestinal colonization and translocation of (rat), 113:550
Salmonellosis, and dietary calcium, 113:372-tmig
SC-58125, suppresses growth of H-*ras*–transformed intestinal epithelial cells (rat), 113:1883
Sclerotherapy, plus propranolol, versus transjugular intrahepatic portosystemic stent shunt, treatment for variceal bleeding, 113:1623
Secretion, 113:689-ss
Selected Summaries
A = B < C, 113:1414

This Month in Gastroenterology
A potpourri of topics on *Helicobacter pylori*, 113:1057
A potpourri of IBD topics, 113:1
Airway protection during swallowing, 113:1427
Are colonic hyperplastic polyps a trivial finding? 113:371
Barium and vitamin B_{12} in IBD, 113:371
Bile acids and cholesterol metabolism, 113:1818
Bile and intestinal MHC molecules, 113:1817
Chronic pancreatitis and pancreatic cancer, 113:372
Cirrhosis revisited, 113:1427
Cost analysis of prophylactic antibiotics in SBP, 113:1058
Diagnosis of Wilson's disease may be challenging, 113:1
Dietary calcium salmonellosis, 113:372
EPEC and intestinal barrier function, 113:1817
Familial aggregation of GERD in Barrett's esophagus, 113:1427
Galectins in colon cancer progression, 113:1818
Guanylin and uroguanylin, 113:736
H. pylori–induced apoptosis, 113:1817
Hepatitis C virus infection, 113:1428
Impact of physician specialty on cost of upper GI bleeding, 113:1427
Interferon therapy for chronic HCV infection, 113:372
Morphine and GERD, 113:371
New observations on the diagnosis and response to treatment of *H. pylori*, 113:1
Novel mechanisms of action of mesalamine in treatment of patients with IBD, 113:1427
NSAIDs for biliary colic, 113:1
NSAIDs, *ras*, and colonic cell growth, and apoptosis, 113:1817
Pathogenesis, prognosis, and treatment of colon cancer, 113:735
Procollagen and bone mass gain in celiac disease, 113:1
Prognosis of patients with end-stage liver disease, 113:1058
Relationship of pancreatic necrosis to organ failure, 113:736
Retinoic acid receptors in pancreatitic cancer, 113:736
TGF-α and experimental colitis, 113:735
The role of cell-cell contacts in acute pancreatitis, 113:1058
Transmission and treatment of hepatitis B, 113:1428
Treatment of cholestatic pruritis, 113:1058
Treatment of cirrhosis-associated coagulopathy, 113:1818
Treatment of patients with chronic hepatitis B, 113:1057
UDCA treatment of PBC, 113:735
Ulcerogenic pancreatic tumor syndrome, 113:1057
Whipple's disease revisited, 113:371
Three-dimensional ultrasonography, assessment of intragastric distribution and gastric emptying, 113:38
Thrombomodulin, expression in IBD, 113:107
TIPS, lack of efficacy for hepatopulmonary syndrome, 113:728-c
Tissue damage, acute, and nitric oxide, 113:1405-e
Training and Education in Gastroenterology, list of available programs, 113:696
Transcription factors, homeobox, expression in proximal and distal small intestine, 113:472
Transforming growth factor α
and experimental colitis, 113:735-tmig
increased susceptibility to dextran sulfate–induced colitis in mice lacking, 113:825

Transjugular intrahepatic portosystemic shunts, 113:693-br
versus sclerotherapy plus propranolol treatment for variceal bleeding, 113:1623
Transmission, *H. pylori* infection, 113:S9, S15, S21, S29
Transplantation biology, 113:2013-br
Transport
impaired intestinal sugar, in cirrhotic rats, correction by low doses of insulin-like growth factor I (rat), 113:1180
mechanisms, fructose, 113:1171
Trichinella spiralis, role of T helper 2 cells in intestinal goblet cell hyperplasia in mice infected with (mouse), 113:542
Trypsinogen, activated mediated by cathepsin B in pancreatic acini (rat), 113:304
Tuberculosis peritonitis, and laparoscopy, 113:687-ss
Tufting enteropathy, cell adhesion molecule distribution in infants with, 113:833
Tumor cell kinetics, inhibition by octreotide in colorectal cancer, 113:767
Tumor necrosis factor, and IL-1, effects during acute pancreatitis (mouse), 113:1741
Tumor necrosis factor α
inhibits collagen α_1(I) gene expression in hepatic stellate cells (rat), 113:625
production dependent on mast cells, role in allergic gastric inflammation (mouse), 113:1560

Ulcer disease
complicated, role of *H. pylori*, 113:S78
medical progress, 113:1031-aga
Ulcerative colitis
chromosomal alterations in neoplastic progression related to, 113:791
possible role of CD95 in, 113:150
risk of after appendectomy, 113:377
serum thrombomodulin as marker of disease activity, 113:107
therapeutic placebo in, 113:2021-c
Ulcerogenic pancreatic tumor syndrome, 113:1057-tmig
Ulcers
porcine model, 113:366-c
prevention of occurrence after eradication of *H. pylori*, 113:1082
Urease, gastritis in mice immunized with after *H. felis* challenge (mouse), 113:1118
Uroguanylin
expression by enterochromaffin cells in gastrointestinal tract (rat), 113:1007
and guanylin, 113:736-tmig
pattern of mRNA expression in intestine (mouse), 113:1000-rc
Urokinase plasminogen, enhanced activation and pathogenesis of chronic pancreatitis, 113:904
Ursodeoxycholic acid (UDCA)
primary biliary cirrhosis, randomized controlled trials, 113:884
treatment of PBC, 113:735-tmig

Vaccination, role for against *H. pylori*, 113:S149
Variceal bleeding, transjugular intrahepatic portosystemic stent shunt versus sclerotherapy plus propranolol, 113:1623
Variceal volume, endoscopic assessment of in cirrhosis, 113:1640
Vasopressin
arginine, induces contraction and stimulated growth of hepatic stellate cells, 113:615
excitatory and inhibitory actions on colonic excitation-contraction (dog), 113:1233
Vesicles, movement in hepatocytes reduced by ethanol (rat), 113:1938
